THE JOURNAL OF
NUTRITION
OFFICIAL PUBLICATION OF
THE AMERICAN SOCIETY FOR NUTRITIONAL SCIENCES

Editor

JOHN W. SUTTIE
University of Wisconsin-Madison
College of Agricultural & Life Sciences
Department of Biochemistry
420 Henry Mall
Madison, Wisconsin 53706-1569

Assistant Editor

KATHRYN K. HARDEN

Associate Editors

LINDSAY H. ALLEN
University of California - Davis
Department of Nutrition
Meyer Hall
One Shields Avenue
Davis, California 95616-8669

JOHN D. FERNSTROM
Univ.of Pittsburgh School of Medicine
Department of Psychiatry
Western Psychiatric Inst. and Clinic
3811 O'Hara Street
Pittsburgh, PA 15213-2593

JOANNE R. LUPTON
Texas A&M University
Department of Animal Science
Human Nutrition Section
218 Kleberg
College Station, Texas 77843-2471

JOSEPH R. PROHASKA
University of Minnesota - Duluth
Department of Biochemistry and Molecular Biology
10 University Drive
Duluth, Minnesota 55812-2487

PETER J. REEDS
Baylor College of Medicine
Department of Pediatrics
Children's Nutrition Research Center
1100 Bates Street
Houston, Texas 77030-2600

JUDITH STORCH
Rutgers University
Department of Nutritional Sciences
96 Lipman Drive
New Brunswick, NJ 08901-8525

Regional Correspondents

Pacific Rim:
David L. Topping
CSIRO Division of Human Nutrition
GPO Box 10041, Gouger Street
Adelaide 5000
Australia
Fax: 61-8-8303-8899

Latin America and the Caribbean:
Jorge L. Rosado
National Institute of Nutrition

GUIDE FOR AUTHORS

Guide for Authors (Revised January 1998) 2
Manuscript Submission and Copyright Release Form 9

ARTICLES

Critical Review

The Bifidogenic Nature of Chicory Inulin and Its Hydrolysis Products. *Marcel B. Roberfroid, Jan A. E. Van Loo and Glenn R. Gibson* 11

Biochemical and Molecular Roles of Nutrients

Energy Restriction and Zinc Deficiency Impair the Functions of Murine T Cells and Antigen-Presenting Cells during Gastrointestinal Nematode Infection. *Hai N. Shi, Marilyn E. Scott, Mary M. Stevenson and Kristine G. Koski* 20
pH Is Regulated Differently by Glucose in Skeletal Muscle from Fed and Starved Rats: A Study Using ^{31}P-NMR Spectroscopy. *Dominique Meynial-Denis, Michele Mignon, Loïc Foucat, Guy Bielicki, Ahmed Ouali, Caroline Tassy, Jean-Pierre Renou, Jean Grizard and Maurice Arnal* 28
Dietary Amylose-Amylopectin Starch Content Affects Glucose and Lipid Metabolism in Adipocytes of Normal and Diabetic Rats. *Morvarid Kabir, Salwa W. Rizkalla, Martine Champ, Jing Luo, Josette Boillot, Françoise Bruzzo and Gérard Slama* 35
Zinc Deficiency Changes Preferred Macronutrient Intake in Subpopulations of Sprague-Dawley Outbred Rats and Reduces Hepatic Pyruvate Kinase Gene Expression. *Kathleen J. Kennedy, Tia M. Rains and Neil F. Shay* 43

Human Nutrition and Metabolism

Intakes of High Fat and High Carbohydrate Foods by Humans Increased with Exposure to Increasing Altitude During an Expedition to Mt. Everest. *Robert D. Reynolds, Julie Ann Lickteig, Mary P Howard, and Patricia A Deuster* 50
Suppressive Effect of Globin Digest on Postprandial Hyperlipidemia in Male Volunteers. *Kyoichi Kagawa, Hisako Matsutaka, Chizuko Fukuhama, Hiroaki Fujino and Hiromichi Okuda* 56
Prior Days Intake Has Macronutrient-Specific Delayed Negative Feedback Effects on the Spontaneous Food Intake of Free-Living Humans. *John M. de Castro* 61
1,25-Dihydroxycholecalciferol Inhibits the Progression of Arthritis in Murine Models of Human Arthritis. *Margherita T. Cantorna, Colleen E. Hayes and Hector F. DeLuca* 68
Acute and Chronic Resistive Exercise Increase Urinary Chromium Excretion in Men as Measured with an Enriched Chromium Stable Isotope. *Michelle A. Rubin, John P. Miller, Alice S. Ryan, Margarita S. Treuth, Kristine Y. Patterson, Richard E. Pratley, Ben F. Hurley, Claude Veillon, Phylis B. Moser-Veillon and Richard A. Anderson* 73
Breath Hydrogen and Methane Expiration in Men and Women after Oat Extract Consumption. *Kay M. Behall, Daniel J. Scholfield, Anna M. C. van der Sluijs and Judith Hallfrisch* 79
Changes in Production of Ethanol, Acids and H_2 from Glucose by the Fecal Flora of a 16- to 158-d-Old Breast-Fed Infant. *Meyer J. Wolin, Susan Yerry, Terry L. Miller, Yongchao Zhang and Shelton Bank* 85
NMR Detection of $^{13}CH_3{}^{13}COOH$ from 3-^{13}C-Glucose: A Signature for *Bifidobacterium* Fermentation in the Intestinal Tract. *Meyer J. Wolin, Yongchao Zhang, Shelton Bank, Susan Yerry and Terry L. Miller* 91

Nutrient Metabolism

Metabolism of Cysteine is Modified During the Acute Phase of Sepsis in Rats. *Thierry Malmezat, Denis Breuillé, Corinne Pouyet, Philippe Patureau Mirand and Christiane Obled.* 97
Dietary Fructooligosaccharides Prevent Osteopenia After Gastrectomy in Rats. *Atsutane Ohta, Masako Ohtsuki, Akira Hosono, Takashi Adachi, Hiroshi Hara and Takashi Sakata* 106
Whole-Body, Peripheral and Intestinal Endogenous Acetate Turnover in Dogs Using Stable Isotopes. *Etienne Pouteau, Henri Dumon, Patrick Nguyen, Dominique Darmaun, Martine Champ and Michel Krempf* 111

Nutrient Requirements and Interactions

Vitamin C Supplementation Restores the Impaired Vitamin E Status of Guinea Pigs Fed Oxidized Frying Oil. *Jen-Fang Liu and Ya-Wen Lee* 116
Metabolic Requirements of Red Drum, *Sciaenops ocellatus*, for Protein and Energy Based on Weight Gain and Body Composition. *Bruce B. McGoogan and Delbert M. Gatlin III* 123
Dietary Selenium Supplementation Is Required to Support Full Expression of Three Selenium-Dependent Glutathione Peroxidases in Various Tissues of Weanling Pigs. *Xin Gen Lei, Heather M. Dann, Deborah A. Ross, Wen-Hsing Cheng, Gerald F. Combs, Jr. and Karl R. Roneker* 130

Neuroscience and Nutrition

Reduced Food Intake in Zinc Deficient Rats Is Normalized by Megestrol Acetate but not by Insulin-Like Growth Factor-I. *J. D. Browning, R. S. MacDonald, W. H. Thornton and B. L. O'Dell* 136

No. 2 FEBRUARY 1998

ARTICLES

The E. V. McCollum International Lectureship in Nutrition

From Research to Global Reality: The Micronutrient Story. *Barbara A. Underwood.* 145

Biochemical and Molecular Roles of Nutrients

α-Tocopherol in Rat Brain Subcellular Fractions Is Oxidized Rapidly during Incubations with Low Concentrations of Peroxynitrite. *Govind T. Vatassery, W. Ed Smith and Hung T. Quach* 152
Insulin-Like Growth Factor-I and II Receptor Expression in Rat Colon Mucosa Are Affected by Dietary Lipid Intake. *Wen Zhang, William H. Thornton, Jr. and Ruth S. MacDonald* 158
Induction and Modulation of Acute-Phase Response by Protein Malnutrition in Rats: Comparative Effect of Systemic and Localized Inflammation on Interleukin-6 and Acute-Phase Protein Synthesis. *Saïd Lyoumi, Fabienne Tamion, Jean Petit, Pierre Déchelotte, Claudine Dauguet, Michel Scotté, Martine Hiron, Antony Leplingard, Jean Philippe Salier, Maryvonne Daveau and Jean Pierre Lebreton* 166
Increases in the Concentrations of Available Iron in Response to Dietary Iron Supplementation Are Associated with Changes in Crypt Cell Proliferation in Rat Large Intestine. *Elizabeth K. Lund, S. Gabrielle Wharf, Susan J. Fairweather-Tait and Ian T. Johnson* 175
Chromium Picolinate Modulates Rat Vascular Smooth Muscle Cell Intracellular Calcium Metabolism. *Jerry W. Moore, Margaret A. Maher, William J. Banz and Michael B. Zemel.* 180
Long-Term Adaptation to High-Fat Diets Modifies the Nature and Output of Postprandial Intestinal Lymph Fatty Acid in Rats. *Pascal Degrace, Claude Caselli and André Bernard* 185
Dietary Supplementation with Mushroom-Derived Protein-Bound Glucan Does Not Enhance Immune Function in Young and Old Mice. *Dayong Wu, Sung Nim Han, Roderick T. Bronson, Donald E. Smith and Simin Nikbin Meydani* 193

Human Nutrition and Metabolism

Moderate and Large Doses of Ethanol Differentially Affect Hepatic Protein Metabolism in Humans. *Elena Volpi, Paola Lucidi, Guido Cruciani, Francesca Monacchia, Stefania Santoni, Gianpaolo Reboldi, Paolo Brunetti, Geremia B. Bolli and Pierpaolo De Feo.* 198

Folate Catabolism in Pregnant and Nonpregnant Women with Controlled Folate Intakes. *Marie A. Caudill, Jesse F. Gregory III, Alan D. Hutson and Lynn B. Bailey* 204
Decreased Serum Total Cholesterol Concentration Is Associated with High Intake of Soy Products in Japanese Men and Women. *Chisato Nagata, Naoyoshi Takatsuka, Yoko Kurisu and Hiroyuki Shimizu* 209
Repletion of the Plasma Pool of Nutrient Transport Proteins Occurs at Different Rates during the Nutritional Rehabilitation of Severely Malnourished Children. *John F. Morlese, Terrence Forrester, Melanie Del Rosario, Margaret Frazer and Farook Jahoor* 214

Nutrient Metabolism

Conversion of Dietary Phylloquinone to Tissue Menaquinone-4 in Rats is Not Dependent on Gut Bacteria. *Robert T. Davidson, Andrea L. Foley, Jean A. Engelke, and John W. Suttie* 220
Severe Malnutrition Alters Lipid Composition and Fatty Acid Profile of Small Intestine in Newborn Piglets. *José M. Lopez-Pedrosa, María I. Torres, María I. Fernández, Antonio Ríos and Angel Gil* 224
White and Wholemeal Flours from Wheats of Low and Higher Apparent Metabolizable Energy Differ in Their Nutritional Effects in Rats. *Mingan Choct, Richard J. Illman, Debra A. Biebrick and David L. Topping* 234
Orally Fed Digalactosyldiacylglycerol Is Degraded during Absorption in Intact and Lymphatic Duct Cannulated Rats. *Lena Ohlsson, Magnus Blom, Karin Bohlinder, Anders Carlsson and Åke Nilsson* 239
Whole Body Composition of Rats Determined by Dual Energy X-Ray Absorptiometry Is Correlated with Chemical Analysis. *Barbra S. Rose, William P. Flatt, Roy J. Martin and Richard D. Lewis* 246
Peptide-Bound Methionine as Methionine Sources for Protein Accretion and Cell Proliferation in Primary Cultures of Ovine Skeletal Muscle. *Yuanlong Pan and Kenneth E. Webb, Jr.* 251

Nutrient Requirements and Interactions

Decreased Citrate Improves Iron Availability from Infant Formula: Application of an In Vitro Digestion/Caco-2 Cell Culture Model. *Raymond P. Glahn, Cindy Lai, Jean Hsu, John F. Thompson, Mingruo Guo and Darrell R. Van Campen* 257
Marginal Zinc Deficiency Lowers the Lymphatic Absorption of α-Tocopherol in Rats. *Eul-Sang Kim, Sang K. Noh and Sung I. Koo* 265
Ferrets (*Mustela putoius furo*) Inefficiently Convert β-Carotene to Vitamin A. *Janine D. Lederman, Katrina M. Overton, Nicolle E. Hofmann, Billy J. Moore, Jesse Thornton and John W. Erdman, Jr.* 271
The Mongolian Gerbil (*Meriones unguiculatus*) Is an Appropriate Animal Model for Evaluation of the Conversion of β-Carotene to Vitamin A. *Christine M. Lee, Janine D. Lederman, Nicolle E. Hofmann and John W. Erdman Jr.* 280

Neuroscience and Nutrition

Intracerebroventricular Administration of Antisense Oligodeoxynucleotide against GLUT2 Glucose Transporter mRNA Reduces Food Intake, Body Weight Change and Glucoprivic Feeding Response in Rats. *Hong Zhong Wan, Martin G. Hulsey and Roy J. Martin* 287

Announcements 292

No. 2S FEBRUARY 1998

ASNS 1997 Symposium Proceedings

SYMPOSIA

Conference: Molecular and Cellular Studies of Rumen Epithelial Metabolism

Use of Isolated Ruminal Epithelial Cells in the Study of Rumen Metabolism. *R. L. Baldwin VI* 293S

Antimicrobial Peptide Expression Is Developmentally Regulated in the Ovine Gastrointestinal Tract. *Kenneth M. Huttner, Donna J. Brezinski-Caliguri, Megan M. Mahoney and Gill Diamond* 297S

Conference: Nutritional and Developmental Roles of Insulin-like Growth Factors between Species

Nutritional and Developmental Roles of Insulin-Like Growth Factors between Species: A Brief History and Introduction. *Douglas C. McFarland* 300S
Nutritional and Developmental Roles of Insulin-like Growth Factors in Poultry. *John P. McMurty* 302S
Nutritional and Developmental Regulation of Insulin-like Growth Factors in Fish. *Cunming Duan* 306S
The Porcine Insulin-Like Growth Factor System: At the Interface of Nutrition, Growth and Reproduction. *Frank A. Simmen, Lokenga Badinga, Michael L. Green, Inseok Kwak, Sihong Song and Rosalia C. M. Simmen* 315S

Symposium: Nutritional Implications of Dietary Protein Restriction in Diabetes Mellitus

Protein Consumption and Diabetes Mellitus: An Overview. *L. John Hoffer* 321S
Protein Metabolism in Insulin-Dependent Diabetes Mellitus. *Michael Charlton and K. Sreekumaran Nair* 323S
Fed State Protein Metabolism in Diabetes Mellitus. *Pierpaolo De Feo* 328S
Adaptation to Protein Restriction Is Impaired in Insulin-Dependent Diabetes Mellitus. *L. John Hoffer* 333S
Nutritional Effects of Dietary Protein Restriction in Insulin-Dependent Diabetes Mellitus. *Irwin G. Brodsky* 337S

Symposium: The Roles of Nutrition, Development and Hormone Sensitivity in the Regulation of Protein Metabolism

The Roles of Nutrition, Development and Hormone Sensitivity in the Regulation of Protein Metabolism: An Overview. *Teresa A. Davis and Peter J. Reeds* 340S
Regulation of Fetal Amino Acid Metabolism: Substrate or Hormonal Regulation? *Edward A. Liechty and Scott C. Denne* 342S
Roles of Insulin and Amino Acids in the Regulation of Protein Synthesis in the Neonate. *Teresa A. Davis, Douglas G. Burrin, Marta L. Fiorotto, Peter J. Reeds and Farook Jahoor* 347S
Age-Related Sarcopenia in Humans Is Associated with Reduced Synthetic Rates of Specific Muscle Proteins. *D. N. Proctor, P. Balagopal and K. S. Nair* 351S
Hormonal Regulation of Protein Metabolism in Relation to Nutrition and Disease. *Peter J. Garlick, Margaret A. McNurlan, Tor Bark, Charles H. Lang and Marie C. Galeto* 356S
Nutrition, Development and Efficacy of Growth Modifiers in Livestock Species. *Alan W. Bell, Dale E. Bauman, Donald H. Beermann and Robert J. Harrell* 360S

Symposium: Between a Rock and a Hard Place: Dietary and Toxicological Standards for Essential Minerals

Between a Rock and a Hard Place: Methods for Setting Dietary Allowances and Exposure Limits for Essential Minerals. *Stephen S. Olin* 364S
Dietary Standards for Manganese: Overlap between Nutritional and Toxicological Studies. *J. L. Greger* 368S
Toxicity Considerations When Revising the Nordic Nutrition Recommendations. *Brittmarie Sandström* 372S
A Perspective on Mineral Standards. *Walter Mertz* 375S

Symposium: Maternal Body Composition, Caloric Restriction and Exercise during Lactation

Maternal Body Composition, Caloric Restriction and Exercise during Lactation: An Overview. *Kathryn G. Dewey* 379S
Body Composition Changes during Lactation Are Highly Variable among Women. *Nancy F. Butte and Judy M. Hopkinson* . . . 381S
Effects of Maternal Caloric Restriction and Exercise during Lactation. *Kathryn G. Dewey* 386S
Effects of Under- and Overnutrition on Lactation in Laboratory Rats. *Kathleen Maher Rasmussen* 390S
Homeostatic Mechanisms that Regulate Lactation during Energetic Stress. *Peter E. Hartmann, Jillian L. Sherriff and Leon R. Mitoulas* 394S

Symposium: The Effects of Childhood Diet on Adult Health and Disease

The Evolution of a New Research Field: Metabolic Programming by Early Nutrition. *Susan B. Roberts and Roger McDonald* . . . 400S
Programming by Early Nutrition: An Experimental Approach. *Alan Lucas* 401S
Psychological Influences on the Childhood Diet. *Leann L. Birch* 407S
Childhood Weight Affects Adult Morbidity and Mortality. *William H. Dietz* 411S

Mild Stunting Is Associated with Higher Susceptibility to the Effects of High Fat Diets: Studies in a Shantytown Population in São Paulo, Brazil. *Ana Lydia Sawaya, Luciane P. Grillo, Ieda Verreschi, Antonio Carlos da Silva and Susan B. Roberts* 415S

Symposium: Evolution of Ideas about the Nutritional Value of Dietary Fat

Evolution of Ideas about the Nutritional Value of Dietary Fat: Introduction. *Robert E. Olson* 421S
Early Ideas on the Nutritional Significance of Lipids. *Kenneth J. Carpenter* 423S
The Slow Discovery of the Importance of ω3 Essential Fatty Acids in Human Health. *Ralph T. Holman* 427S
Eicosanoids and Isoeicosanoids: Indices of Cellular Function and Oxidant Stress. *Muredach P. Reilly, John A. Lawson and Garret A. FitzGerald* 434S
Discovery of the Lipoproteins, Their Role in Fat Transport and Their Significance as Risk Factors. *Robert E. Olson* 439S
Dietary Fatty Acids and the Regulation of Plasma Low Density Lipoprotein Cholesterol Concentrations. *John M. Dietschy* 444S
History of Recommendations to the Public about Dietary Fat. *David Kritchevsky* 449S

Symposium: Functional Metabolism of Vitamin A in Embryonic Development

Introduction. *Maija H. Zile* 453S
Vitamin A and Embryonic Development: An Overview. *Maija H. Zile* 455S
Alcohol Dehydrogenase as a Critical Mediator of Retinoic Acid Synthesis from Vitamin A in the Mouse Embryo. *Gregg Duester* 459S
Aldehyde Dehydrogenases in the Generation of Retinoic Acid in the Developing Vertebrate: A Central Role of the Eye. *Ursula C. Dräger, Elisabeth Wagner and Peter McCaffery* 463S
Retinoids and Their Receptors in Vertebrate Embryogenesis. *Susan M. Smith, Eileen D. Dickman, Susan C. Power and Joseph Lancman* 467S
The Role of Vitamin A in the Development of the Central Nervous System. *Malcolm Maden, Emily Gale and Maija Zile* 471S

No. 3 MARCH 1998

ARTICLES

Biochemical and Molecular Roles of Nutrients

Myristic Acid-Rich Fat Raises Plasma LDL by Stimulating LDL Production without Affecting Fractional Clearance in Gerbils Fed a Cholesterol-Free Diet. *Tahar Hajri, Pramod Khosla, Andrzej Pronczuk and K. C. Hayes* 477
Dietary Fructooligosaccharides Prevent Postgastrectomy Anemia and Osteopenia in Rats. *Atsutane Ohta, Masako Ohtsuki, Mariko Uehara, Akira Hosono, Masao Hirayama, Takashi Adachi and Hiroshi Hara* 485
Fish Oil Blocks Azoxymethane-Induced Rat Colon Tumorigenesis by Increasing Cell Differentiation and Apoptosis Rather Than Decreasing Cell Proliferation. *Wen-Chi L. Chang, Robert S. Chapkin and Joanne R. Lupton* 491
Dietary Long-Chain (n-3) Fatty Acids Facilitate Immune Cell Activation in Sedentary, but not Exercise-Trained Rats. *Lindsay E. Robinson and Catherine J. Field* 498
Change in Insulin Sensitivity or Responsiveness Is Not a Major Component of the Mechanism of Action of Ractopamine in Beef Steers. *Joan H. Eisemann and David G. Bristol* 505
Dietary (n-3) and (n-6) Polyunsaturated Fatty Acids Rapidly Modify Fatty Acid Composition and Insulin Effects in Rat Adipocytes. *Maria Fickova, Pierre Hubert, Gérard Crémel and Claude Leray* 512
Expression of Mutant Bovine Growth Hormone Genes in Mice Perturbs Age-Related Nutrient Utilization Patterns. *Nancy D. Turner, Joanne R. Knapp, F. Michael Byers and John J. Kopchick* 520
Dietary Iron Intake Rapidly Influences Iron Regulatory Proteins, Ferritin Subunits and Mitochondrial Aconitase in Rat Liver. *Opal S. Chen, Kenneth P. Blemings, Kevin L. Schalinske and Richard S. Eisenstein* 525
Dietary Maltitol Decreases the Incidence of 1,2-Dimethylhydrazine-Induced Cecum and Proximal Colon Tumors in Rats. *Midoriko Tsukamura, Hidemi Goto, Tomiyasu Arisawa, Tetsuo Hayakawa, Naoya Nakai, Taro Murakami, Noriaki Fujitsuka and Yoshiharu Shimomura* 536

Community and International Nutrition

Specific Patterns of Food Consumption and Preparation Are Associated with Diabetes and Obesity in a Native Canadian Community. *Joel Gittelsohn, Thomas M. S. Wolever, Stewart B. Harris, Robert Harris-Giraldo, Anthony J. G. Hanley and Bernard Zinman* 541

Household Participation in the Food Stamp and WIC Programs Increases the Nutrient Intakes of Preschool Children. *Donald Rose, Jean-Pierre Habicht and Barbara Devaney* 548
Zinc Supplementation Improves the Growth of Stunted Rural Guatemalan Infants. *Juan A. Rivera, Marie T. Ruel, Maria Claudia Santizo, Bo Lönnerdal and Kenneth H. Brown* 556

Human Nutrition and Metabolism

A Randomized Controlled Trial of the Influence of the Mode of Enteral Ornithine α-Ketoglutarate Administration in Burn Patients. *Jean-Pascal De Bandt, Colette Coudray-Lucas, Nicole Lioret, Soo Kyung Lim, Robert Saizy, Jacqueline Giboudeau and Luc Cynober* 563
Composition of Human VLDL Triacylglycerols after Ingestion of Olive Oil and High Oleic Sunflower Oil. *Valentina Ruiz-Gutiérrez, Nora Morgado, José Luis Prada, Francisco Pérez-Jiménez and Francisco J. G. Muriana* 570
Hot Spices Influence Permeability of Human Intestinal Epithelial Monolayers. *Erika Jensen-Jarolim, Leszek Gajdzik, Ines Haberl, Dietrich Kraft, Otto Scheiner and Jürg Graf* 577
An NCEP II Diet Reduces Postprandial Triacylglycerol in Normocholesterolemic Adults. *Michael Miller, Beverly Teter, Christina Dolinar and Angeliki Georgopoulos* 582
Tolerance and Breath Hydrogen Excretion Following Ingestion of Maltitol Incorporated at Two Levels into Milk Chocolate Consumed by Healthy Young Adults with and without Fasting. *David M. Storey, George A. Koutsou, Adam Lee, Albert Zumbe, Philippe Olivier, Yues Le Bot and Bernard Flourie* 587
Supplementation with Quercetin Markedly Increases Plasma Quercetin Concentration without Effect on Selected Risk Factors for Heart Disease in Healthy Subjects. *J. A. Conquer, G. Maiani, E. Azzini, A. Raguzzini and B. J. Holub* 593

Nutrient Metabolism

Guanidinated Protein Test Meals with Higher Concentration of Soybean Trypsin Inhibitors Increase Ileal Recoveries of Endogenous Amino Acids In Pigs. *William R. Caine, Willem C. Sauer, Martin W. A. Verstegen, Seerp Tamminga, Shaoyan Li and Hagen Schulze* 598
Catabolism Dominates the First-Pass Intestinal Metabolism of Dietary Essential Amino Acids in Milk Protein-Fed Piglets. *Barbara Stoll, Joseph Henry, Peter J. Reeds, Hung Yu, Farook Jahoor and Douglas G. Burrin* 606
Chronic Exposure to Secoisolariciresinol Diglycoside Alters Lignan Disposition in Rats. *Sharon E. Rickard and Lilian U. Thompson* 615
Metabolic and Endocrine Traits of Neonatal Calves Are Influenced by Feeding Colostrum for Different Durations or Only Milk Replacer. *Harald M. Hammon and Juerg W. Blum* 624

Nutrient Requirements and Interactions

Calcium Metabolism and Bone Calcium Content in Normal and Oophorectomized Rats Consuming Various Levels of Saline for 12 Months. *Ellen Lai-Ping Chan and R. Swaminathan* 633
Dietary Restriction of Energy and Calcium Alters Bone Turnover and Density in Younger and Older Female Rats. *Shawn M. Talbott, Michael M. Rothkopf and Sue A. Shapses* 640
Vitamin A and β-Carotene Can Improve Nonheme Iron Absorption from Rice, Wheat and Corn by Humans. *María Nieves García-Casal, Miguel Layrisse, Liseti Solano, María Adela Barón, Franklin Arguello, Daisy Llovera, José Ramírez, Irene Leets and Eleonora Tropper* 646

Nutrient Analysis Procedures

An In Vitro Method, Based on Chewing, To Predict Resistant Starch Content in Foods Allows Parallel Determination of Potentially Available Starch and Dietary Fiber. *Anna K. E. Åkerberg, Helena G. M. Liljeberg, Yvonne E. Granfeldt, Anders W. Drews and Inger M. E. Björck* 651

Issues and Opinions

Issues of Design and Analysis Relating to the Use of Multiparous Species in Developmental Nutritional Studies. *Patricia E. Wainwright* 661

Book Review

Nutrition Policy in Public Health. *Reviewed by Riva Touger-Decker* 664

Announcements 665

No. 4 APRIL 1998

ARTICLES

Recent Advances in Nutritional Sciences

Mammalian Zinc Transporters. *Robert McMahon and Robert Cousins* 667

Biochemical and Molecular Roles of Nutrients

Selective Elevation of Glutathione Levels in Target Tissues with L-2-Oxothiazolidine-4-Carboxylate (OTC) Protects against Hyperoxia-Induced Lung Damage in Protein-Energy Malnourished Rats: Implications for a New Treatment Strategy. *Mark A. Levy, Bozena Sikorski and Tammy M. Bray* 671
Obese Gene Expression in Porcine Adipose Tissue Is Reduced by Food Deprivation but not by Maintenance or Submaintenance Intake. *Michael E. Spurlock, G. Robert Frank, Steven G. Cornelius, Shaoquan Ji, Gawain M. Willis and Christopher A. Bidwell* 677
Thiamine Deficiency Decreases Steady-State Transketolase and Pyruvate Dehydrogenase but not α-Ketoglutarate Dehydrogenase mRNA Levels in Three Human Cell Types. *Stevan R. Pekovich, Peter R. Martin and Charles K. Singleton* . . . 683
Fermentation Products of Sugar-Beet Fiber by Cecal Bacteria Lower Plasma Cholesterol Concentration in Rats. *Hiroshi Hara, Satoko Haga, Takanori Kasai and Shuhachi Kiriyama* 688

Community and International Nutrition

Alcoholic Beverage Consumption and Lung Cancer Risk among Residents of Los Angeles County. *Catherine L. Carpenter, Hal Morgenstern and Stephanie J. London* 694
Adolescent Obesity Increases Significantly in Second and Third Generation U.S. Immigrants: The National Longitudinal Study of Adolescent Health. *Barry M. Popkin and J. Richard Udry* 701

Human Nutrition and Metabolism

Metallothionein Expression Is Increased in Monocytes and Erythrocytes of Young Men during Zinc Supplementation. *Vicki K. Sullivan, Frank R. Burnett and Robert J. Cousins* 707
A Prospective Study of Dietary Fiber Types and Symptomatic Diverticular Disease in Men. *Walid H. Aldoori, Edward L. Giovannucci, Helaine R H. Rockett, Laura Sampson, Eric B. Rimm and Walter C. Willett* 714
Dietary Supplementation with L-Methionine Impairs the Utilization of Urea-Nitrogen and Increases 5-L-Oxoprolinuria in Normal Women Consuming a Low Protein Diet. *Tracey S. Meakins, Chandarika Persaud and Alan A. Jackson* 720
Supplementation with Isoflavonoid Phytoestrogens Does Not Alter Serum Lipid Concentrations: A Randomized Controlled Trial in Humans. *Jonathan M. Hodgson, Ian B. Puddey, Lawrence J. Beilin, Trevor A. Mori and Kevin D. Croft* 728

Nutrient Metabolism

In Vivo Glucose Contribution to Glutamate Synthesis Is Maintained While Its Contribution to Acetyl CoA Is Lowered in Adult Mice Fed a Diet with a High Fat:Carbohydrate Ratio. *Monica Pascual, Farook Jahoor and Peter J. Reeds* 733
Maternal Diet Fatty Acid Composition Affects Neurodevelopment in Rat Pups. *Monisha D. Saste, Jane D. Carver, Janet E. Stockard, Valerie J. Benford, Li T. Chen and Christopher P. Phelps* 740
One or More Serum Factors Promote Peptide Utilization in Cultured Animal Cells. *Yuanlong Pan, Patrick K. Bender, R. Michael Akers and Kenneth E. Webb, Jr.* 744

Nutrient Requirements and Interactions

Taurine Status in Cats Is Not Maintained by Dietary Cysteinesulfinic Acid. *Susan E. Edgar, Claudia A. Kirk, Quinton R. Rogers and James G. Morris* 751
Chronic Ethanol Consumption Affects Glutathione Status in Rat Liver. *Se In Oh, Cho-Il Kim, Hui Jung Chun and Sang Chul Park* 758
Iron Supplementation Does Not Affect Cell Proliferation or Aberrant Crypt Foci Development in the Colon of Sprague-Dawley Rats. *Kelay E. Soyars and Joan G. Fischer* 764

Neuroscience and Nutrition

Neurochemical Changes after Imbalanced Diets Suggest a Brain Circuit Mediating Anorectic Responses to Amino Acid Deficiency in Rats. *Dorothy W. Gietzen, Lesa F. Erecius and Quinton R. Rogers* 771

LETTERS TO THE EDITOR

Comments on the Paper by Willumsen et al. (1997). *Francisco J. Rosales* 782
Response to the Letter to the Editor from Rosales. *Suzanne Filteau* 783
Announcements 784

No. 5 MAY 1998

ARTICLES

Recent Advances in Nutritional Sciences

Dietary Intake and Adequacy of Vitamin K. *Sarah L. Booth and J. W. Suttie* 785

The E. V. McCollum International Lectureship in Nutrition

Old and New Substrates in Clinical Nutrition. *Peter Fürst* 789

Critical Review

Pharmacological Nutrition After Burn Injury. *Daurea Abadia De-Souza and Lewis Joel Greene* 797

Biochemical and Molecular Roles of Nutrients

A Diet Containing Chickpeas and Wheat Offers Less Protection against Colon Tumors than a Casein and Wheat Diet in Dimethylhydrazine-Treated Rats. *Graeme H. McIntosh, Y. H. Alex Wang and Peter J. Royle* 804
Exercise Training Down-Regulates Hepatic Lipogenic Enzymes in Meal-Fed Rats: Fructose versus Complex-Carbohydrate Diets. *Russ Fiebig, Margaret A. Griffiths, Mitchell T. Gore, David H. Baker, Lawrence Oscai, Denise M. Ney and Li Li Ji* 810
Histidase Expression Is Regulated by Dietary Protein at the Pretranslational Level in Rat Liver. *Nimbe Torres, Laura Martínez, Gabriela Alemán, Héctor Bourges and Armando R. Tovar* 818
Metallothionein Knockout and Transgenic Mice Exhibit Altered Intestinal Processing of Zinc with Uniform Zinc-Dependent Zinc Transporter-1 Expression. *Steven R. Davis, Robert J. McMahon and Robert J. Cousins* 825
Ascorbic Acid Deficiency Changes Hepatic Gene Expression of Acute Phase Proteins in Scurvy-Prone ODS Rats. *Saiko Ikeda, Fumihiko Horio and Atsushi Kakinuma* 832
Intake of Soy Protein and Soy Protein Extracts Influences Lipid Metabolism and Hepatic Gene Expression in Gerbils. *Claudia Tovar-Palacio, Susan M. Potter, Julie C. Hafermann and Neil F. Shay* 839
Stimulation of Epithelial Cell Proliferation of Isolated Distal Colon of Rats by Continuous Colonic Infusion of Ammonia or Short-Chain Fatty Acids Is Nonadditive. *Hirofumi Ichikawa and Takashi Sakata* 843
Hydroxypropyl-Modified Potato Starch Increases Fecal Bile Acid Excretion in Rats. *Kiyoshi Ebihara, Rumiko Shiraishi and Kazuhiro Okuma* 848

Community and International Nutrition

Iron Nutritional Status Is Improved in Brazilian Preterm Infants Fed Food Cooked in Iron Pots. *Eliana V. M. Borigato and Francisco E. Martinez* 855
Fortified Foods Contribute One Half of Recommended Vitamin A Intake in Poor Urban Guatemalan Toddlers. *Vivian M. Krause, Helene Delisle and Noel W. Solomons* 860

Human Nutrition and Metabolism

Full-Fat Rice Bran and Oat Bran Similarly Reduce Hypercholesterolemia in Humans. *Ann L. Gerhardt and Noreen B. Gallo* . . . 865
Dietary Effects on Coagulation Factor VII Vary across Genotypes of the R/Q353 Polymorphism in Elderly People. *Louise I. Mennen, Moniek P. M. de Maat, Evert G. Schouten, Cornelis Kluft, Jacqueline C. M. Witteman, Albert Hofman and Diederick E. Grobbee* . . . 870

Nutrient Metabolism

Poor Digestibility of Fully Hydrogenated Soybean Oil in Rats: A Potential Benefit of Hydrogenated Fats and Oils. *Randall J. Kaplan and Carol E. Greenwood* . . . 875
Dietary Fatty Acid Sources Affect Conjugated Linoleic Acid (CLA) Concentrations in Milk from Lactating Dairy Cows. *Miriam L. Kelly, Julie R. Berry, Debra A. Dwyer, J.M. Griinari, P. Yvan Chouinard, Michael E. Van Amburgh and Dale E. Bauman* . . . 881
Carnitine Palmitoyltransferase I (CPT I) Activity and Its Regulation by Malonyl-CoA Are Modulated by Age and Cold Exposure in Skeletal Muscle Mitochondria from Newborn Pigs. *Isabelle Schmidt and Patrick Herpin* . . . 886
Maternal Dietary Protein Deficiency Decreases Amino Acid Concentrations in Fetal Plasma and Allantoic Fluid of Pigs. *Guoyao Wu, Wilson G. Pond, Troy Ott and Fuller W. Bazer* . . . 894
Increased Dermal Carotenoid Levels Assessed by Noninvasive Reflection Spectrophotometry Correlate with Serum Levels in Women Ingesting Betatene. *Wilhelm Stahl, Ulrike Heinrich, Holger Jungmann, Jutta von Laar, Michael Schietzel, Helmut Sies and Hagen Tronnier* . . . 903

Nutrient Requirements and Interactions

Chitin but Not Chitosan Supplementation Enhances Growth of Grass Shrimp, *Penaeus monodon*. *Shi-Yen Shiau and Yi-Ping Yu* . . . 908
Research Communication: Bioavailability of β-Carotene Is Lower in Raw than in Processed Carrots and Spinach in Women. *Cheryl L. Rock, Jennifer L. Lovalvo, Curt Emenhiser, Mack T. Ruffin, Shirley W. Flatt and Steven J. Schwartz* . . 913

Recent Advancements in Nutritional Science

Polyunsaturated Fatty Acid Regulation of Gene Expression. *Anna M. Sessler and James M. Ntambi* . . . 923

Biochemical and Molecular Roles of Nutrients

Moderate Dietary Protein and Energy Restriction Modulate cAMP-Dependent Protein Kinase Activity in Rat Liver. *L. J. O'Brien, K. D. Levac and L. E. Nagy* . . . 927
Dietary Fructooligosaccharides Change the Concentration of Calbindin-D9k Differently in the Mucosa of the Small and Large Intestine of Rats. *Atsutane Ohta, Yasuko Motohashi, Masako Ohtsuki, Masao Hirayama, Takashi Adachi and Keiko Sakuma* . . . 934
Mechanisms of Decreased Lipoprotein Lipase Activity in Adipocytes of Starved Rats Depend on Duration of Starvation. *Jae-Joon Lee, Pamela J. Smith and Susan K. Fried* . . . 940
Weaning and the Weanling Diet Influence the Villous Height and Crypt Depth in the Small Intestine of Pigs and Alter the Concentrations of Short-Chain Fatty Acids in the Large Intestine and Blood. *Hetty M. G. van Beers-Schreurs, Marius J. A. Nabuurs, Liebe Vellenga, Hilda J. Kalsbeek-van der Valk, Theo Wensing and Hendrik J. Breukink* . . . 947
Dietary Isoflavones Reduce Plasma Cholesterol and Atherosclerosis in C57BL/6 Mice but not LDL Receptor–Deficient Mice. *Elizabeth A. Kirk, Phuong Sutherland, Shari A. Wang, Alan Chait and Renee C. LeBoeuf* . . . 954
Acute Inflammation Induces Hyporetinemia and Modifies the Plasma and Tissue Response to Vitamin A Supplementation in Marginally Vitamin A–Deficient Rats. *Francisco J. Rosales and A. Catharine Ross* . . . 960

Lipogenic Enzyme Gene Expression Is Quickly Suppressed in Rats by a Small Amount of Exogenous Polyunsaturated Fatty Acids. *Nobuko Iritani, Masumi Komiya, Hitomi Fukuda and Tomomi Sugimoto* 967
Research Communication: Histidine Availability Alters Glucagon Gene Expression in Murine αTC6 Cells. *Gregory L. Paul, Aparna Waegner, H. Rex Gaskins and Neil F. Shay* 973

Human Nutrition and Metabolism

Digestion of Carbohydrate from White Beans (*Phaseolus vulgaris* L.) in Healthy Humans. *Lionel Noah, Fabienne Guillon, Brigitte Bouchet, Alain Buléon, Christine Molis, Maria Gratas and Martine Champ* 977
Metabolizable Energy of High Non-Starch Polysaccharide-Maintenance and Weight-Reducing Diets in Men: Experimental Appraisal of Assessment Systems. *Jacqueline Brown, Geoffrey Livesey, Mark Roe, Richard Faulks, Sally Poppitt, Jacqueline Wilkinson and Marinos Elia* 986
Consumption of Exogenous Bifidobacteria Does Not Alter Fecal Bifidobacteria and Breath Hydrogen Excretion in Humans. *Mary M. Amann, Martin J. Kullen, Margaret C. Martini, Francis F. Busta and Linda J. Brady* 996
Alcohol-Free Red Wine Enhances Plasma Antioxidant Capacity in Humans. *Mauro Serafini, Giuseppe Maiani and Anna Ferro-Luzzi* 1003
Fraction of Carbon-Free Body Mass as Oxygen Is a Constant Body Composition Ratio in Men. *ZiMian Wang, Paul Deurenberg, Wei Wang, Richard N. Pierson, Jr. and Steven B. Heymsfield* 1008

Nutrient Metabolism

Dietary Structured Triacylglycerols Containing Docosahexaenoic Acid Given from Birth Affect Visual and Auditory Performance and Tissue Fatty Acid Profiles of Rats. *Merete M. Christensen, Søren P. Lund, Leif Simonsen, Ulla Hass, Svend E. Simonsen and Carl-Erik Høy* 1011
Sesamolin Inhibits Lipid Peroxidation in Rat Liver and Kidney. *Myung-Hwa Kang, Michitaka Naito, Nobuko Tsujihara and Toshihiko Osawa* 1018

Nutrient Requirements and Interactions

Insulin-Dependent Glucose Utilization in Intensively Milk-Fed Veal Calves Is Modulated by Supplemental Lactose in an Age-Dependent Manner. *Doris Hugi, Luc Tappy, Helga Sauerwein, Rupert M. Bruckmaier and Jürg W. Blum* 1023
Alimentary Lipemia Is Enhanced in Fiber-Fed Rats. *Beth Olson and Barbara O. Schneeman* 1031
Placental Copper Transport in Rats: Effects of Elevated Dietary Zinc on Fetal Copper, Iron and Metallothionein. *Anthony Barone, Osama Ebesh, Rita G. Harper and Raul A. Wapnir* 1037
Nutritional Utilization by Rats of Chickpea (*Cicer arietinum*) Meal and Its Isolated Globulin Proteins Is Poorer than That of Defatted Soybean or Lactalbumin. *Luis A. Rubio, George Grant, Peter Dewey, David Brown, Maureen Annand, Susan Bardocz and Arpad Pusztai* 1042

Issues and Opinions in Nutrition

Does Excess Dietary Protein Adversely Affect Bone? Symposium Overview. *Linda K. Massey* 1048
Excess Dietary Protein Can Adversely Affect Bone. *Uriel S. Barzel and Linda K. Massey* 1051
Excess Dietary Protein May Not Adversely Affect Bone. *Robert P. Heaney* 1054

ARTICLES

Biochemical and Molecular Roles of Nutrients

Vitamin A Is Required for Regulation of Polymeric Immunoglobulin Receptor (pIgR) Expression by Interleukin-4 and Interferon-γ in a Human Intestinal Epithelial Cell Line. *Jolly Sarkar, Nupur N. Gangopadhyay, Zina Moldoveanu, Jiri Mestecky and Charles B. Stephensen* 1063

Cellular Glutathione Peroxidase Is the Mediator of Body Selenium To Protect against Paraquat Lethality in Transgenic Mice. *Wen-Hsing Cheng, Ye-Shih Ho, Beth A. Valentine, Deborah A. Ross, Gerald F. Combs, Jr. and Xin Gen Lei* 1070
Iron Deficiency Reduces the Hydrolysis of Cell Membrane Phosphatidyl-Inositol 4,5-Bisphosphate during Splenic Lymphocyte Activation in C57BL/6 Mice. *Solo R. Kuvibidila, B. Surendra Baliga, Raj P. Warrier and Robert M. Suskind* 1077
Highly Purified Soybean Protein Is Not Hypocholesterolemic in Rats but Stimulates Cholesterol Synthesis and Excretion and Reduces Polyunsaturated Fatty Acid Biosynthesis. *Sihem Madani, Stéphanie Lopez, Jean Paul Blond, Josiane Prost and Jacques Belleville* 1084
Zinc Deficiency Enhances Interleukin-1α–Induced Metallothionein-1 Expression in Rats. *Li Cui, Yoji Takagi, Masafumi Wasa, Yasuhiko Iiboshi, Masahiro Inoue, Jesmine Khan, Kinya Sando, Riichiro Nezu and Akira Okada* 1092
Insulin, Glucagon-Like Peptide 1, Glucose-Dependent Insulinotropic Polypeptide and Insulin-Like Growth Factor I as Putative Mediators of the Hypolipidemic Effect of Oligofructose in Rats. *Nadine N. Kok, Linda M. Morgan, Christine M. Williams, Marcel B. Roberfroid, Jean-Paul Thissen and Nathalie M. Delzenne* 1099
Dietary Cholesterol Affects Serum Lipids, Lipoproteins and LDL Metabolism in Cynomolgus Monkeys in a Dose-Dependent Manner. *Arthur F. Stucchi, Robert J. Nicolosi, William H. Karge III, Lynne M. Ausman and Jose M. Ordovas* 1104
Food Deprivation Changes Peroxisomal β-Oxidation Activity but Not Catalase Activity during Postnatal Development in Pig Tissues. *Xing Xian Yu, James K. Drackley and Jack Odle* 1114

Community and International Nutrition

Urinary Iodine Excretion Is the Most Appropriate Outcome Indicator for Iodine Deficiency under Field Conditions at the District Level. *Lucia V. H. Pardede, Widanto Hardjowasito, Rainer Gross, Drupadi H. S. Dillon, Ongko S. Totoprajogo, Mardhani Yosoprawoto, Lies Waskito and Juliawati Untoro* 1122
Eating from a Shared Plate Affects Food Consumption in Vitamin A–Deficient Nepali Children. *A. V. Shankar, J. Gittelsohn, K. P. West, Jr., R. Stallings, T. Gnywali and F. Faruque* 1127
The NCHS Reference and the Growth of Breast- and Bottle-Fed Infants. *Cesar G. Victora, Saul S. Morris, Fernando C. Barros, Mercedes de Onis and Ray Yip* 1134

Human Nutrition and Metabolism

Sodium Iron EDTA as a Food Fortificant Does Not Influence Absorption and Urinary Excretion of Manganese in Healthy Adults. *Lena Davidsson, Annette Almgren and Richard F. Hurrell* 1139
Plasma Lipid Response to Hypolipidemic Diets in Young Healthy Non-Obese Men Varies with Body Mass Index. *Sergio Jansen, Jose Lopez-Miranda, Joaquin Salas, Pedro Castro, Jose A. Paniagua, Fernando Lopez-Segura, Jose M. Ordovas, Jose A. Jimenez-Pereperez, Angeles Blanco and Francisco Perez-Jimenez* 1144
α-Tocopherol Concentrations in Plasma but not in Lipoproteins Fluctuate during the Menstrual Cycle in Healthy Premenopausal Women. *Elaine Lanza, Michele R. Forman, Elizabeth J. Johnson, Richard A. Muesing, Barry I. Graubard and Gary R. Beecher* 1150

Nutrient Metabolism

Resistant Proteins Alter Cecal Short-Chain Fatty Acid Profiles in Rats Fed High Amylose Cornstarch. *Tatsuya Morita, Seiichi Kasaoka, Akira Oh-hashi, Michiyoshi Ikai, Yoso Numasaki and Shuhachi Kiriyama* 1156
Regulation of Branched-Chain Amino Acid Metabolism in the Lactating Rat. *Soledad DeSantiago, Nimbe Torres, Agus Suryawan, Armando R. Tovar, and Susan M. Hutson* 1165
Accumulation of (−)-Epicatechin Metabolites in Rat Plasma after Oral Administration and Distribution of Conjugation Enzymes in Rat Tissues. *Mariusz K. Piskula and Junji Terao* 1172

Nutrient Requirements and Interactions

Tissue Stores of β-Carotene Are Not Conserved for Later Use as a Source of Vitamin A during Compromised Vitamin A Status in Mongolian Gerbils (*Meriones unguiculatus*). *Angela J. Thatcher, Christine M. Lee and John W. Erdman, Jr.* 1179
Feeding Diets Containing High Levels of Milk Products or Cellulose Decrease Urease Activity and Ammonia Production in Rat Intestine. *Kyu-Il Kim, Wang-Sik Lee and Norlin J. Benevenga* 1186
Intestinal Fermentation Lessens the Inhibitory Effects of Phytic Acid on Mineral Utilization in Rats. *Hubert W. Lopez, Charles Coudray, Jacques Bellanger, Hassan Younes, Christian Demigné and Christian Rémésy* 1192
Dietary Psyllium Increases Fecal Bile Acid Excretion, Total Steroid Excretion and Bile Acid Biosynthesis in Rats. *Kimberly K. Buhman, Emily J. Furumoto, Shawn S. Donkin and Jon A. Story* 1199
Moderate Folate Depletion Increases Plasma Homocysteine and Decreases Lymphocyte DNA Methylation in Postmenopausal Women. *Robert A. Jacob, Denise M. Gretz, Peter C. Taylor, S. Jill James, Igor P. Pogribny, Barbara J. Miller, Susanne M. Henning and Marian E. Swendseid* 1204

Nutritional Neuroscience

Dorsomedial Hypothalamic Lesions Alter Intake of an Imbalanced Amino Acid Diet in Rats. *Larry L. Bellinger, James F. Evans and Dorothy W. Gietzen* 1213
Zinc Deficiency Increases Hypothalamic Neuropeptide Y and Neuropeptide Y mRNA Levels and Does Not Block Neuropeptide Y–Induced Feeding in Rats. *Rita G. Lee, Tia M. Rains, Claudia Tovar-Palacio, J. Lee Beverly and Neil F. Shay* 1218
Prenatal Malnutrition-Induced Functional Alterations in Callosal Connections and in Interhemispheric Asymmetry in Rats Are Prevented by Reduction of Noradrenaline Synthesis during Gestation. *Rubén Soto-Moyano, Sergio Alarcon, Alejandro Hernández, Hernán Pérez, Samuel Ruiz, Paz Carreño, Claudia Kusch and Jorge Belmar* 1224
Calcium-Deprived Rats Avoid Sweet Compounds. *Michael G. Tordoff and Sydrick H. Rabusa* 1232

Nutritional Toxicology

Zinc Pretreatment Inhibits Isotretinoin Teratogenicity and Induces Embryonic Metallothionein in CD-1 Mice. *Danielle Blain, Stan Kubow and Hing Man Chan* 1239

Recent Advances in Nutritional Science

Intestinal Mucosal Amino Acid Catabolism. *Guoyao Wu* 1249

History of Nutrition

Experiment Station Dietary Studies Prior to World War II: A Bibliography for the Study of Changing American Food Habits and Diet Over Time. *Robert Dirks and Nancy Duran* 1253

Biochemical and Molecular Roles of Nutrients

Docosahexaenoic Acid Increases Thyroid-Stimulating Hormone Concentration in Male and Adrenal Corticotrophic Hormone Concentration in Female Weanling Rats. *M. Thomas Clandinin, Donna L. Claerhout and Eric L. Lien* 1257
Energy Metabolism of Rat Colonocytes Changes during the Tumorigenic Process and Is Dependent on Diet and Carcinogen. *Jianhu Zhang, Guoyao Wu, Robert S. Chapkin and Joanne R. Lupton* 1262
Fatty Acids Modulate Lecithin:Cholesterol Acyltransferase Secretion Independently of Effects on Triglyceride Secretion in Primary Rat Hepatocytes. *Thomas V. Fungwe, Bhalchandra J. Kudchodkar, Andras G. Lacko and Ladislav Dory* 1270
Copper Efflux from Murine Microvascular Cells Requires Expression of the Menkes Disease Cu-ATPase. *Yongchang Qian, Evelyn Tiffany-Castiglioni, Jane Welsh and Edward D. Harris* 1276
Plasma Lipids and Fatty Acid Synthase Activity Are Regulated by Short-Chain Fructo-Oligosaccharides in Sucrose-Fed Insulin-Resistant Rats. *Nasrin Agheli, Morvarid Kabir, Sibilla Berni-Canani, Estelle Petitjean, Abdelghani Boussairi, Jing Luo, Francis Bornet, Gerard Slama and Salwa W. Rizkalla* 1283
Liver Selenium and Testis Phospholipid Hydroperoxide Glutathione Peroxidase Are Associated with Growth during Selenium Repletion of Second-Generation Se-Deficient Male Rats. *Kevin M. Thompson, Helmut Haibach, Jacqueline K. Evenson and Roger A. Sunde* 1289
Glutamine Reduces Heat Shock–Induced Cell Death in Rat Intestinal Epithelial Cells. *Alice Chow and Rongping Zhang* . . 1296
Diet Influences Development of the Pig (*Sus scrofa*) Intestine during the First 6 Hours after Birth. *Hongzheng Zhang, Christiane Malo, Carolyn R. Boyle and Randal K. Buddington* 1302
Research Communication: The Acrodermatitis Enteropathica Mutation Affects Protein Expression in Human Fibroblasts: Analysis by Two-Dimensional Gel Electrophoresis. *Arthur Grider and Michael F. Mouat* 1311

Community and International Nutrition

Malnutrition of Children in the Democratic People's Republic of North Korea. *Judit Katona-Apte and Ali Mokdad* 1315
Vitamin A Supplementation but Not Deworming Improves Growth of Malnourished Preschool Children in Eastern Zaire. *Philippe Donnen, Daniel Brasseur, Michèle Dramaix, Francoise Vertongen, Mweze Zihindula, Mbasha Muhamiriza and Philippe Hennart* 1320
Infant Feeding Practices in Barbados Predict Later Growth. *Janina R. Galler, Frank C. Ramsey, Robert H. Harrison, Rechele Brooks and Sally Weiskopf-Bock* 1328

Human Nutrition and Metabolism

Methylenetetrahydrofolate Reductase Polymorphism Affects the Change in Homocysteine and Folate Concentrations Resulting from Low Dose Folic Acid Supplementation in Women with Unexplained Recurrent Miscarriages. *Willianne L.D.M. Nelen, Henk J. Blom, Chris M. G. Thomas, Eric A. P. Steegers, Godfried H. J. Boers and Tom K.A.B. Eskes* 1336
Threonine and Methionine Are Limiting Amino Acids for Protein Synthesis in Patients with AIDS. *Henri Laurichesse, Igor Tauveron, Florence Gourdon, Louis Cormerais, Claude Champredon, Sophie Charrier, Cécile Rochon, Sylvie Lamain, Gérard Bayle, Henri Laveran, Philippe Thieblot, Jean Beytout and Jean Grizard* 1342
Increased Serum Cholesterol in Healthy Human Methane Producers Is Confounded by Age. *Judlyn Fernandes, Thomas M. S. Wolever and A. Venketeshwer Rao* 1349
Fibrinogen Synthesis Is Elevated in Fasting Cancer Patients with an Acute Phase Response. *Tom Preston, Christine Slater, Donald C. McMillan, J. Stuart Falconer, Alan Shenkin and Kenneth C. H. Fearon* 1355
Chylomicron β-Carotene and Retinyl Palmitate Responses Are Dramatically Diminished When Men Ingest β-Carotene with Medium-Chain Rather than Long-Chain Triglycerides. *Patrick Borel, Viviane Tyssandier, Nadia Mekki, Pascal Grolier, Yvanne Rochette, Marie C. Alexandre-Gouabau, Denis Lairon and Veronique Azaïs-Braesco* 1361

Nutrient Metabolism

Dietary Protein Level Regulates Expression of the Mitochondrial Branched-Chain Aminotransferase in Rats. *Nimbe Torres, Gabriel López, Soledad De Santiago, Susan M. Hutson and Armando R. Tovar* 1368
Addition of Triglycerides with Arachidonic Acid or Docosahexaenoic Acid to Infant Formula Has Tissue- and Lipid Class–Specific Effects on Fatty Acids and Hepatic Desaturase Activities in Formula-Fed Piglets. *Sylvia de la Presa-Owens, Sheila M. Innis and France M. Rioux* 1376
Dietary Guar Gum and Pectin Stimulate Intestinal Microbial Polyamine Synthesis in Rats. *Jutta Noack, Brigitta Kleessen, Jürgen Proll, Gerhard Dongowski and Michael Blaut* 1385

Nutrient Requirements and Interactions

Chronic Fluoride Exposure Does Not Cause Detrimental, Extraskeletal Effects in Nutritionally Deficient Rats. *Ann J. Dunipace, Edward J. Brizendine, Marie E. Wilson, Wu Zhang, Barry P. Katz and George K. Stookey* 1392
Plasma Thyroid Hormone Kinetics Are Altered in Iron-Deficient Rats. *John L. Beard, Dale E. Brigham, Sean K. Kelley and Michael H. Green* 1401

Nutrient Requirements and Interactions

Confirmation of the Role of Rapidly Fermentable Carbohydrates in the Expression of Swine Dysentery in Pigs after Experimental Infection. *John R. Pluske, Zorica Durmic, David W. Pethick, Bruce P. Mullan and David J. Hampson* 1737
Oscars, *Astronotus ocellatus*, Have a Dietary Requirement for Vitamin C. *Débora M. Fracalossi, Mary E. Allen, Donald K. Nichols and Olav T. Oftedal* 1745
Threonine Requirement of Neonatal Piglets Receiving Total Parenteral Nutrition Is Considerably Lower than That of Piglets Receiving an Identical Diet Intragastrically. *Robert F. P. Bertolo, Cathy Z. L. Chen, Garson Law, Paul B. Pencharz and Ronald O. Ball* 1752
Lipopolysaccharide-Induced Reductions in Food Intake Do Not Decrease the Efficiency of Lysine and Threonine Utilization for Protein Accretion in Chickens. *Douglas M. Webel, Rodney W. Johnson and David H. Baker* 1760
Plasma Retinol Is a Major Determinant of Vitamin A Utilization in Rats. *Sean K. Kelley and Michael H. Green* 1767
The Marginal Efficiency of Utilization of All Ileal Digestible Indispensable Amino Acids for Protein Gain Is Lower than 30% in Preruminant Calves between 80 and 240 kg Live Weight. *Walter J. J. Gerrits, Johan W. Schrama and Seerp Tamminga* 1774
Fermentable Dietary Fiber Increases GLP-1 Secretion and Improves Glucose Homeostasis Despite Increased Intestinal Glucose Transport Capacity in Healthy Dogs. *Stefan P. Massimino, Michael I. McBurney, Catherine J. Field, Alan B. R. Thomson, Monika Keelan, Michael G. Hayek and Gregory D. Sunvold* 1786
Physiologic Concentrations of Zinc Affect the Kinetics of Copper Uptake and Transport in the Human Intestinal Cell Model, Caco-2. *Philip G. Reeves, Mary Briske-Anderson and LuAnn Johnson* 1794
Dietary Lutein Absorption from Marigold Extract is Rapid in BALB/c Mice. *Jean Soon Park, Boon P. Chew and Teri S. Wong* 1802

Research Communication: A High Sucrose Diet Decreases the Mechanical Strength of Bones in Growing Rats. *Leo Tjäderhane and Markku Larmas* 1807
Research Communication: Dietary Xylitol Protects Against Weakening of Bone Biomechanical Properties in Ovariectomized Rats. *Pauli T. Mattila, Martti J. Svanberg, Pauli Pökkä and Matti L. E. Knuuttila* 1811
Research Communication: True Calcium Absorption in the Intestine Is Enhanced by Fructooligosaccharide Feeding in Rats. *Tomio Morohashi, Tsuneyoshi Sano, Atsutane Ohta and Shoji Yamada* 1815

Nutritional Neurosciences

Reduced Glucose Consumption in the *Curly Tail* Mouse Does Not Initiate the Pathogenesis Leading to Spinal Neural Tube Defects *Marian C. E. Peeters, Jan L.M.C. Geelen, Johan W. M. Hekking, Niels Chavannes, Joep P. M. Geraedts and Henny W. M. van Straaten* 1819
Dietary Excess of Vitamin B-6 Affects the Concentrations of Amino Acids in the Caudate Nucleus and Serum and the Binding Properties of Serotonin Receptors in the Brain Cortex of Rats. *Monica C. Schaeffer, Denise Gretz, Dorothy W. Gietzen and Quinton R. Rogers.* 1829

Issues and Opinions in Nutrition

Dietary Guidelines for Children: Where Are We Heading? *Susan M. Groziak and Gregory D. Miller* 1836

Announcements 1839

No. 11 NOVEMBER 1998

ARTICLES

Recent Advances in Nutritional Science

Recently Identified Molecular Aspects of Intestinal Iron Absorption. *Richard J. Wood and Okhee Han* 1841

Critical Review

Lessons from Basic Research in Selenium and Cancer Prevention. *Clement Ip* 1845

Biochemical and Molecular Roles of Nutrients

Arrested Maturation of Granulocytes in Copper Deficient Mice. *Joanne Karimbakas, Bobbi Langkamp-Henken and Susan S. Percival* 1855
Flaxseed and Its Lignan Precursor, Secoisolariciresinol Diglycoside, Affect Pregnancy Outcome and Reproductive Development in Rats. *Janet C. L. Tou, Jianmin Chen and Lilian U. Thompson* 1861
Vitamin A Up-Regulates Expression of Bone-Type Alkaline Phosphatase in a Rat Small Intestinal Crypt Cell Line and Fetal Rat Small Intestine. *Takeshi Nikawa, Kazuhito Rokutan, Kayo Nanba, Kaori Tokuoka, Shigetada Teshima, Michael J. Engle, David H. Alpers and Kyoichi Kishi* 1869
A High Glycemic Index Starch Diet Affects Lipid Storage-Related Enzymes in Normal and to a Lesser Extent in Diabetic Rats. *Morvarid Kabir, Salwa W. Rizkalla, Annie Quignard-Boulangé, Michèle Guerre-Millo, Josette Boillot, Bernadette Ardouin, Jing Luo and Gérard Slama* 1878
Dietary Soy Protein Isolate, Compared with Casein, Reduces Atherosclerotic Lesion Area in Apolipoprotein E-Deficient Mice. *Weihua Ni, Yasuyuki Tsuda, Masanobu Sakono and Katsumi Imaizumi* 1884
Cysteine Sulfinic Acid Decarboxylase mRNA Abundance Decreases in Rats Fed a High-Protein Diet. *Ann A. Jerkins, Deborah D. Jones and Edwin A. Kohlhepp* 1890

Human Nutrition and Metabolism

Kinetic Model of Folate Metabolism in Nonpregnant Women Consuming [$^2H_2$]Folic Acid: Isotopic Labeling of Urinary Folate and the Catabolite *para*-Acetamidobenzoylglutamate Indicates Slow, Intake-Dependent, Turnover of Folate Pools. *Jesse F. Gregory III, Jerry Williamson, Jo-Fu Liao, Lynn B. Bailey and John P. Toth* 1896
Urinary Excretion of [$^2H_4$]Folate by Nonpregnant Women Following a Single Oral Dose of [$^2H_4$]Folic Acid Is a Functional Index of Folate Nutritional Status. *Jesse F. Gregory III, Jerry Williamson, Lynn B. Bailey and John P. Toth* 1907
Development of a Minimally Invasive Protocol for the Determination of Phenylalanine and Lysine Kinetics in Humans during the Fed State. *Rachelle Bross, Ronald O. Ball and Paul B. Pencharz* 1913
Correlation between Carotenoid Concentrations in Serum and Normal Breast Adipose Tissue of Women with Benign Breast Tumor or Breast Cancer. *Kyung-Jin Yeum, Sei-Hyun Ahn, Sergio Alberto Rupp de Paiva, Yang Cha Lee-Kim, Norman I. Krinsky and Robert M. Russell* 1920
A Low-Viscosity Soluble-Fiber Fruit Juice Supplement Fails to Lower Cholesterol in Hypercholesterolemic Men and Women. *Michael H. Davidson, Lynn D. Dugan, Jill Stocki, Mary R. Dicklin, Kevin C. Maki, Frances Coletta, Richard Cotter, Max McLeod and Kenneth Hoersten* 1927
Research Communication: Cervical Tissue and Plasma Concentrations of α-Carotene and β-Carotene in Women Are Correlated. *Antonio J. Gamboa-Pinto, Cheryl L. Rock, Mario G. Ferruzzi, Amy B. Schowinsky and Steven J. Schwartz* . . . 1933

Nutrient Metabolism

Dietary Inulin Lowers Plasma Cholesterol and Triacylglycerol and Alters Biliary Bile Acid Profile in Hamsters. *Elke A. Trautwein, Dörte Rieckhoff and Helmut F. Erbersdobler* 1937
Dietary Pectin with High Viscosity Lowers Plasma and Liver Cholesterol Concentration and Plasma Cholesteryl Ester Transfer Protein Activity in Hamsters. *A.H.M. Terpstra, J. A. Lapre, H. T. de Vries and A. C. Beynen* 1944
Phytic Acid Inhibits Free Radical Formation In Vitro but Does Not Affect Liver Oxidant or Antioxidant-Status in Growing Rats. *Gerald Rimbach and Josef Pallauf* 1950
Properties of Food Folates Determined by Stability and Susceptibility to Intestinal Pteroylpolyglutamate Hydrolase Action. *Elias Seyoum and Jacob Selhub* 1956
The Current ^{15}N-Leucine Infusion Technique Is Not Suitable for Quantitative Measurements of Ileal Endogenous Amino Acid Flows in Pigs. *Pascal Leterme, Bernard Sève and André Théwis* 1961
The ^{15}N Amino Acid Dilution Method Allows the Determination of the Real Digestibility and of the Ileal Endogenous Losses of the Respective Amino Acid in Pigs. *Vincent Hess, Jean Noel Thibault and Bernard Sève* 1969
Swimming Capacity of Mice Is Increased by Oral Administration of a Nonpungent Capsaicin Analog, Stearoyl Vanillylamide. *Kyung-Mi Kim, Teruo Kawada, Kengo Ishihara, Kazuo Inoue and Tohru Fushiki* 1978
The Role of Lipogenesis in the Development of Obesity and Diabetes in Israeli Sand Rats (*Psammomys obesus*). *Paul A. Lewandowski, David Cameron-Smith, Colleen J. Jackson, Eva R. Kultys and Greg R. Collier* 1984

Nutrient Requirements and Interactions

Supplementation with Canthaxanthin Affects Plasma and Tissue Distribution of α- and γ-Tocopherols in Mice. *Paola Palozza, Gabriella Calviello, Simona Serini, Piera Moscato and Gianna Maria Bartoli* 1989
Vitamin B-6 Deficiency and Level of Dietary Protein Affect Hepatic Tyrosine Aminotransferase Activity in Cats. *Sungchul C. Bai, Quinton R. Rogers, Daniel L. Wong, David A. Sampson and James G. Morris* 1995
Digestion and Absorption Rates of [^3H]-Oleic Acid and [^{14}C]-Triolein Do Not Differ in Rats Fed Heated (−) and (+) Gossypol Cottonseed and Soybean Flours. *Josiane Prost, Jacques Belleville and Véronique Fustier-Bertrand* 2001
All-*trans* β-Carotene Is Absorbed Preferentially to 9-*cis* β-carotene, but the Latter Accumulates in the Tissues of Domestic Ferrets (*Mustela putorius puro*). *John W. Erdman Jr., Angela J. Thatcher, Nicolle E. Hofmann, Janine D. Lederman, Stephanie S. Block, Christine M. Lee and Shoshana Mokady* 2009
Low Nutritional Quality of Unconventional Tropical Crop Seeds in Rats. *Jürgen Proll, Klaus J. Petzke, Ikechukwu E. Ezeagu and Cornelia C. Metges* 2014
Dietary Persimmon Improves Lipid Metabolism in Rats Fed Diets Containing Cholesterol. *Shela Gorinstein, Elzbieta Bartnikowska, Gustaw Kulasek, Marina Zemser and Simon Trakhtenberg* 2023
The Maltitol-induced Increase in Intestinal Calcium Transport Increases the Calcium Content and Breaking Force of Femoral Bone in Weanling Rats. *Toshinao Goda, Kazuhiro Kishi, Ikuko Ezawa and Sachiko Takase* 2028
Research Communication: Apparent Digestibility of a Debranched Amylopectin-Lipid Complex and Resistant Starch Incorporated into Enteral Formulas Fed to Ileal-Cannulated Dogs. *Sean M. Murray, Avinash R. Patil, George C. Fahey, Jr., Neal R. Merchen, Bryan W. Wolf, Chron-Si Lai and Keith A. Garleb* 2032

Issues and Opinions in Nutrition

Molecular Methodologies in Nutrition Research. *Steven D. Clarke and Sooja K. Kim* 2036
mRNA Quantitation Techniques: Considerations for Experimental Design and Application. *Karen Reue* 2038
Eukaryotic Transcription Factors: Identification, Characterization and Functions. *Vincent W. Yang* 2045
Utility and Importance of Gene Knockout Animals For Nutritional and Metabolic Research. *David Y. Hui* 2052

LSRO Report: Assessment of Nutrient Requirements for Infant Formulas

Foreword ii
Executive Summary **2059S**
Abbreviations **2078S**
I. Introduction **2079S**
Background on Regulation of Nutrient Composition of Formulas for Term Infants 2079S
History of regulation of infant formulas 2079S
Evolution of nutrient specifications for infant formulas in the United States 2079S
Purpose of the Study 2079S
Scope of Work 2081S
Parameters of the Report 2082S
Approach to the Study 2083S
II. Concepts for the Derivation of Minimum and Maximum Levels of Nutrients in Infant Formulas 2083S
Principles 2083S
Concepts Applied to Setting Minimum Levels 2084S
Concepts Applied to Setting Maximum Nutrient Levels 2085S
III. Energy **2085S**
IV. Fat **2089S**
Total Fat 2089S
Essential Fatty Acids (EFA) Including n-3 and n-6 Long Chain Polyunsaturated Fatty Acids (LCPUFA) 2090S
Other Fatty Acids and Related Substances 2106S
Myristic acid 2106S
Medium-chain triglycerides (MCT) 2106S
Trans-fatty acids 2106S
Vitamin E 2107S
Cholesterol 2107S
V. Protein **2110S**
Total Protein 2110S
Protein Quality 2114S
Individual Proteins, Amino Acids and Other Nitrogenous Substances 2118S
Lactoferrin 2118S
Carnitine 2120S
Taurine 2121S
Nucleotides 2122S
Glutathione 2125S
Urea 2125S
Glutamine 2125S
Glycine 2125S
Choline 2126S
Inositol 2127S
VI. Potential Renal Solute Load (PRSL) **2129S**
VII. Carbohydrate **2131S**
Total Carbohydrate 2131S
Monosaccharides: Glucose 2132S
Oligosaccharides 2133S
Disaccharides 2133S
Lactose 2133S
Sucrose 2137S

Polysaccharides 2137S
Glucose polymers 2137S
Modified food starches 2138S

VIII. Minerals 2140S
Calcium 2140S
Phosphorus 2143S
Magnesium 2145S
Iron 2147S
Zinc 2157S
Manganese 2161S
Copper 2164S
Iodine 2167S
Sodium 2169S
Potassium 2171S
Chloride 2172S
Selenium 2173S
Fluoride 2177S
Chromium 2180S
Molybdenum 2181S

IX. Vitamins 2182S
Vitamin A 2182S
Vitamin D 2183S
Vitamin E 2184S
Vitamin K 2186S
Thiamin 2188S
Riboflavin 2189S
Niacin 2190S
Vitamin B_6 ..... 2191S
Vitamin B_{12} 2193S
Folic Acid 2194S
Pantothenic Acid 2196S
Biotin 2197S
Vitamin C 2198S

X. Recommendations for Research and Considerations Regarding the Addition of Specific New Substances to Infant Formulas 2200S

XI. Literature Cited 2201S

XII. Study Participants 2232S
Ad hoc Expert Panel 2232S
Food and Drug Administration 2233S
Life Sciences Research Office Staff 2233S

XIII. Individuals and Organizations Submitting Information Relating to Infant Formula 2234S
Open Meeting Participants 2234S
Written Comments 2234S

APPENDICES

APPENDIX A: Minimum and Maximum Nutrient Specifications for Term Infant Formulas, as Recommended by the FDA and Other Authoritative Organizations
APPENDIX B: Studies of Dietary LCPUFA in Term Infants
APPENDIX C-1: Consultants' Comments
APPENDIX C-2: Minority Report Regarding the Minimum Iron Content of Infant Formulas for Full Term Infants
APPENDIX D: Technological Studies of Microalgal and Fungal Sources of LCPUFAS
APPENDIX E: Effects of Cholesterol Supplementation in Infant Formulas
APPENDIX F: Comparison of Nutrient Composition of Various Sources of Infant Nutrition
APPENDIX G: Protein Quality

LIFE SCIENCES RESEARCH OFFICE PUBLICATIONS ..... Back Cover

No. 12 DECEMBER 1998

ARTICLES

Recent Advances in Nutritional Science

Iron Regulatory Proteins, Iron Responsive Elements and Iron Homeostasis. *Richard S. Eisenstein and Kenneth P. Blemings* 2295

Biochemical and Molecular Roles of Nutrients

Phenotypic Consequences of a Nonsense Mutation in the Leptin Receptor Gene (fa^k) in Obese Spontaneously Hypertensive Koletsky Rats (SHROB). *Tatsuya Ishizuka, Paul Ernsberger, Sha Liu, David Bedol, Timothy M. Lehman, Richard J. Koletsky and Jacob E. Friedman* 2299
Grape Juice but Not Orange or Grapefruit Juice Inhibits Platelet Activity in Dogs and Monkeys (*Macaca fasciularis*). *Hashim E. Osman, Nabil Maalej, Dhanansayan Shanmuganayagam and John D. Folts* 2307
Probiotics Reinforce Mucosal Degradation of Antigens in Rats: Implications for Therapeutic Use of Probiotics. *Tanja Pessi, Yelda Sütas, Aulis Marttinen and Erika Isolauri* 2313
Antihyperglycemic Actions of *Eucalyptus globulus* (Eucalyptus) are Associated with Pancreatic and Extra-Pancreatic Effects in Mice. *Alison M. Gray and Peter R. Flatt* 2319
Natural Dietary Polyphenolic Compounds Cause Endothelium-Dependent Vasorelaxation in Rat Thoracic Aorta. *Emile Andriambeloson, Céline Magnier, Gisèle Haan-Archipoff, Annelise Lobstein, Robert Anton, Alain Beretz, Jean Claude Stoclet and Ramaroson Andriantsitohaina* 2324
Green Tea Polyphenols Block Endotoxin-Induced Tumor Necrosis Factor-Production and Lethality in a Murine Model. *Fajun Yang, Willem J. S. de Villiers, Craig J. McClain and Gary W. Varilek* 2334
Maternal and Fetal Insulin-Like Growth Factor System and Embryonic Survival During Pregnancy in Rats: Interaction between Dietary Chromium and Diabetes. *M. T. Spicer, B. J. Stoecker, T. Chen and L. J. Spicer* 2341
Liver α-Tocopherol Transfer Protein and Its mRNA Are Differentially Altered by Dietary Vitamin E Deficiency and Protein Insufficiency in Rats. *Huey-Mei Shaw and Ching-jang Huang* 2348

Community and International Nutrition

Supplement Users Differ from Nonusers in Demographic, Lifestyle, Dietary and Health Characteristics. *Barbara J. Lyle, Julie A. Mares-Perlman, Barbara E. K. Klein, Ronald Klein and Janet L. Greger* 2355
A Scale Without Anthropometric Measurements Can Be Used to Identify Low Weight-for-Age in Children Less than Five Years Old. *Maribel Orozco, Homero Martínez, Hortensia Reyes and Héctor Guiscafré* 2363

Human Nutrition and Metabolism

Zinc Metabolism and Requirement in Chinese Preschool Children Consuming Different Diets. *Chen Chujian, Yu Shouyang, Bao Shunyi and Lu Rong* 2369
Energy Available from Corn Oil Is Not Different than that from Beef Tallow in High- or Low-Fiber Diets Fed to Humans. *William V. Rumpler, David J. Baer and Donna G. Rhodes* 2374
Serum Antioxidant Capacity Is Increased by Consumption of Strawberries, Spinach, Red Wine or Vitamin C in Elderly Women. *Guohua Cao, Robert M. Russell, Neal Lischner and Ronald L. Prior* 2383
Research Communication: Postprandial Plasma Carotenoid Responses Following Consumption of Strawberries, Red Wine, Vitamin C or Spinach by Elderly Women. *Sergio A.R. Paiva, Kyung-Jin Yeum, Guohua Cao, Ronald L. Prior and Robert M. Russell* 2391

Nutrient Metabolism

Maternal Dietary Protein Deficiency Decreases Nitric Oxide Synthase and Ornithine Decarboxylase Activities in Placenta and Endometrium of Pigs During Early Gestation. *Guoyao Wu, Wilson G. Pond, Sean P. Flynn, Troy L. Ott and Fuller W. Bazer* 2395
Gastric Digestion Modifies Absorption of Butterfat into Lymph Chylomicrons in Rats. *Hui-Chuan Lai and Denise M. Ney* 2403
Exogenous Conjugated Linoleic Acid Isomers Reduce Bovine Milk Fat Concentration and Yield by Inhibiting De Novo Fatty Acid Synthesis. *Juan J. Loor and Joseph H. Herbein* 2411
Glutathione and Glutathione Ethyl Ester Supplementation of Mice Alter Glutathione Homeostasis during Exercise. *Christiaan Leeuwenburgh and Li Li Ji* 2420
Mitochondrial Lysine Uptake Limits Hepatic Lysine Oxidation in Rats Fed Diets Containing 5, 20 or 60% Casein. *Kenneth P. Blemings, Thomas D. Crenshaw and Norlin J. Benevenga* 2427

Infusion of Soy and Casein Protein Meals Affects Interorgan Amino Acid Metabolism and Urea Kinetics Differently in Pigs. *Nicolaas E. P. Deutz, Maaike J. Bruins and Peter B. Soeters* 2435

Nutrient Requirements and Interactions

Absorption of Nutrients Is Only Slightly Reduced by Supplementing Enteral Formulas with Viscous Fiber in Miniature Pigs. *Hansjörg Ehrlein and Axel Stockmann* 2446
Maternal Blood, Egg and Larval Thiamin Levels Correlate with Larval Survival in Landlocked Atlantic Salmon (*Salmo salar*). *Jeffrey P. Fisher, Scott B. Brown, Gregory W. Wooster and Paul R. Bowser* 2456
In Well-Fed Young Rats, Lactose-Induced Chronic Diarrhea Reduces the Apparent Absorption of Vitamins-A and E and Affects Preferentially Vitamin E Status. *Juan P. Liuzzi, Anna M. Cioccia and Patricio Hevia* 2467
Long-Chain Polyunsaturated Fatty Acid Levels in Formulae Influence Deposition of Docosahexaenoic Acid and Arachidonic Acid in Brain and Red Blood Cells of Artificially Reared Neonatal Rats. *G. R. Ward, Y. S. Huang, E. Bobik, H-C. Xing, L. Mutsaers, N. Auestad, M. Montalto and P. Wainwright* 2473
Boron Stimulates Embryonic Trout Growth. *Curtis D. Eckhert* 2488
Dietary Biotin Requirement for Maximum Growth of Juvenile Grass Shrimp, *Penaeus monodon*. *Shi-Yen Shiau and Ya-Hui Chin* 2494
Pigs Fed Cholesterol Neonatally Have Increased Cerebrum Cholesterol as Young Adults. *S. L. Boleman, T. L. Graf, H. J. Mersmann, D. R. Su, L. P. Krook, J. W. Savell, Y. W. Park and W. G. Pond* 2498

Nutritional Neurosciences

High Maternal Intake of Polyunsaturated Fatty Acids During Pregnancy in Mice Alters Offsprings' Aggressive Behavior, Immobility in the Swim Test, Locomotor Activity and Brain Protein Kinase C Activity. *Margarita Raygada, Elizabeth Cho and Leena Hilakivi-Clarke* 2505
Dietary Fish Oil Affects Monoaminergic Neurotransmission and Behavior in Rats. *Sylvie Chalon, Sylvie Delion-Vancassel, Catherine Belzung, Denis Guilloteau, Anne-Marie Leguisquet, Jean-Claude Besnard and Georges Durand* 2512
Neuropeptide Y and Corticotropin-Releasing Hormone Concentrations within Specific Hypothalamic Regions of Lean but Not Ob/ob Mice Respond to Food-Deprivation and Refeeding. *Miyoung Jang and Dale R. Romsos* 2520

LETTERS TO THE EDITOR

Trypsin Inhibitors and Endogenous Amino Acids. *Pascal Leterme and Bernard Sève* 2526
Response to Drs. Leterme and Sève. *William Caine* 2528
Comment on Recent Symposium Overview: Does Excess Dietary Protein Adversely Affect Bone. *Duane T. Lowe* 2529

WALTHAM INTERNATIONAL SYMPOSIUM ON PET NUTRITION AND HEALTH IN THE 21ST CENTURY

Nutrition for Health

Metabolic Demands for Amino Acids and the Human Dietary Requirement: Millward and Rivers (1988) Revisited. *D. Joe Millward* 2563S

Optimizing Dietary Amino Acid Patterns at Various Levels of Crude Protein for Cats. *Quinton R. Rogers, Timothy P. Taylor and James G. Morris* . . . 2577S
Leukocytosis and Thrombocytosis Caused by Consumption of a Low Magnesium and High Calcium Diet Elevates Whole-Blood Taurine Concentration in Cats. *Robert C. Backus, Kimberly A. Howard, Quinton R. Rogers and James G. Morris* . . . 2581S
Effects of Protein Supply on Plasma Urea and Creatinine Concentrations in Female Mink (*Mustela vison*). *Anne-Helene Tauson and Søren Wamberg* . . . 2584S
Growth and Morphometrics of Green Iguanas (*Iguana iguana*) Fed Four Levels of Dietary Protein. *Susan Donoghue, Justin Vidal and David Kronfeld* . . . 2587S
Dietary Copper Influences Reproductive Efficiency of Queens. *Andrea J. Fascetti, James G. Morris and Quinton R. Rogers* . . . 2590S
Are Organic Zinc Sources Efficacious in Puppies? *Karen J. Wedekind and Stephen R. Lowry* . . . 2593S
Bioavailability of Zinc Propionate in Dogs. *Friedhelm Brinkhaus, Jim Mann, Cris Zorich and John A. Greaves* . . . 2596S
Investigations on Phosphorus Requirements of Adult Cats. *Ellen Kienzle, Claudia Thielen and Claudia Pessinger* . . . 2598S
Magnesium Requirement of Kittens Is Increased by High Dietary Calcium. *Kimberly A. Howard, Quinton R. Rogers and James G. Morris* . . . 2601S
The Influence of Dietary Sources of Zinc, Copper and Manganese on Canine Reproductive Performance and Hair Mineral Content. *Gail Kuhlman and Ronald E. Rompala* . . . 2603S
Folate Requirement of Growing Kittens to Prevent Elevated Formiminoglutamic Acid Excretion Following Histidine Loading. *Shiguang Yu and James G. Morris* . . . 2606S
Factorial Calculation of Nutrient Requirements in Lactating Queens. *Ellen Kienzle* . . . 2609S
Energy Metabolism, Nutrient Oxidation and Water Turnover in the Lactating Mink (*Mustela vison*). *Anne-Helene Tauson, Henriette Juul Sørensen, Søren Wamberg and André Chwalibog* . . . 2615S
Investigations on Milk Composition and Milk Yield in Queens. *Britta Dobenecker, Barbara Zottmann, Ellen Kienzle and Jürgen Zentek* . . . 2618S
Direct Measurements of Daily Milk Intake in Suckling Mink (*Mustela vison*) Kits. *Søren Wamberg and Anne-Helene Tauson* . . . 2620S
Changing Perspectives on Aging and Energy Requirements: Aging and Energy Intakes in Humans, Dogs and Cats. *E. Jean Harper* . . . 2623S
Changing Perspectives on Aging and Energy Requirements: Aging, Body Weight and Body Composition in Humans, Dogs and Cats. *E. Jean Harper* . . . 2627S
Changing Perspectives on Aging and Energy Requirements: Aging and Digestive Function in Humans, Dogs and Cats. *E. Jean Harper* . . . 2632S
Thyroid Hormone Levels in Cats: Colony Average and the Decrease with Age. *Nicola D. Skinner* . . . 2636S
Hematology Values in a Colony of Budgerigars (*Melopsittacus undulatus*) and Changes Associated with Aging. *E. J. Harper and B. Lowe* . . . 2639S
Dietary Flaxseed in Dogs Results in Differential Transport and Metabolism of (n-3) Polyunsaturated Fatty Acids. *John E. Bauer, Brent L. Dunbar and Karen E. Bigley* . . . 2641S
Manipulation of Dietary (n-6) and (n-3) Fatty Acids Alters Platelet Function in Cats. *Korinn E. Saker, Alison L. Eddy, Craig D. Thatcher and Joan Kalnitsky* . . . 2645S
Effect of Diet on Plasma Triglycerides, Cholesterol, β-Hydroxybutyrate and Free Fatty Acids in Cats. *Britta Dobenecker, Ellen Kienzle, Hans-Peter Sallmann and Herbert Fuhrmann* . . . 2648S
A Kinetic Study of Acetate Metabolism in Dogs Using [1-^{13}C] Acetate. *Etienne Pouteau, Henri Dumon, Vincent Biourge, Michel Krempf and Patrick Nguyen* . . . 2651S
Glycemic and Insulinemic Responses after Ingestion of Commercial Foods in Healthy Dogs: Influence of Food Composition. *Patrick Nguyen, Henri Dumon, Vincent Biourge and Etienne Pouteau* . . . 2654S
Measurement of Postprandial Incremental Glucose and Insulin Changes in Healthy Dogs: Influence of Food Adaptation and Length of Time of Blood Sampling. *Patrick Nguyen, Henri Dumon, Vincent Biourge and Etienne Pouteau* . . . 2659S
Lactulose Ingestion Has No Effect on Plasma Acetate in Dogs Studied with [1-^{13}C] Acetate. *Etienne Pouteau, Henri Dumon, Vincent Biourge, Michel Krempf and Patrick Nguyen* . . . 2663S
Hydrogen Production in Dogs Adapts to Addition of Lactulose and to a Meat and Rice Diet. *Etienne Pouteau, Henri Dumon, Vincent Biourge, Michel Krempf and Patrick Nguyen* . . . 2666S
The Satiating Effect of a Diet Containing Jojoba Meal (*Simmondsia chinensis*) in Dogs. *Amanda J. Hawthorne and Richard F. Butterwick* . . . 2669S
Fiber Digestion in the African White-Bellied Hedgehog (*Atelerix albiventris*): A Preliminary Evaluation. *Wendy S. Graffam, Marianne P. Fitzpatrick and Ellen S. Dierenfeld* . . . 2671S
Interactions of Cellulose Content and Diet Composition with Food Intake and Digestibility in Dogs. *Britta Dobenecker and Ellen Kienzle* . . . 2674S
Comparative Nutrient Digestibility in Dogs, Blue Foxes, Mink and Rats. *Øystein Ahlstrøm and Anders Skrede* . . . 2676S
Hematology and Clinical Chemistry Parameters in the Cat (*Felis domesticus*). *Michael O'Brien, Martin G. Murphy and John A. Lowe* . . . 2678S
Body Composition of Puppies and Young Dogs. *Ellen Kienzle, Jürgen Zentek and Helmut Meyer* . . . 2680S
The Comparative Nutrition of Two Passerine Species: the Canary (*Serinus canarius*) and the Zebra Finch (*Poephila guttata*). *E. J. Harper, L. Lambert and N. Moodie* . . . 2684S
The Nutritional Requirements of Exercising Dogs. *Richard C. Hill* . . . 2686S
Changes in Plasma and Muscle Creatine Concentration after Increases in Supplementary Dietary Creatine in Dogs. *John A. Lowe, Martin Murphy and Victoria Nash* . . . 2691S

Biological and Nutritional Consequences of Work at High Altitude in Search and Rescue Dogs: The Scientific Expedition Chiens des Cimes-Licancabur 1996. *D. Grandjean, R. Sergheraert, J. P. Valette and F. Driss* 2694S
Developments in Equine Nutrition: Comparing the Beginning and End of This Century. *Patricia A. Harris* 2698S
Exercise Affects Digestibility and Rate of Passage of All-Forage and Mixed Diets in Thoroughbred Horses. *Joe D. Pagan, Pat Harris, Tammy Brewster-Barnes, Stephen E. Duren and Stephen G. Jackson* 2704S
Dietary Carbohydrates and Fat Influence Milk Composition and Fatty Acid Profile of Mare's Milk. *Rhonda M. Hoffman, David S. Kronfeld, Joseph H. Herbein, William S. Swecker, Wendell L. Cooper and Patricia A. Harris* 2708S

Nutrition and Disease

Periodontal Disease and Diet in Domestic Pets. *Cecilia Gorrel* 2712S
Halitosis in Dogs and the Effect of Periodontal Therapy. *John M. Rawlings and Neil Culham* 2715S
Diet and Large Intestinal Disease in Dogs and Cats. *James W. Simpson* 2717S
Intravenous Glutamine or Limited Enteral Feedings in Piglets: Amelioration of Small Intestinal Disuse Atrophy. *Rebecca L. Remillard, Frank Guerino, David L. Dudgeon and John H. Yardley* 2723S
Atrophied Small Intestinal Responses of Piglets to Oral Feedings of Milk. *Rebecca L. Remillard, David L. Dudgeon and John H. Yardley* 2727S
The Use of Probiotics in the Diet of Dogs. *Vincent Biourge, Céline Vallet, Anne Levesque, Renaud Sergheraert, Stéphane Chevalier and Jean-Luc Roberton* 2730S
Nutritional Support for Dogs and Cats with Hepatobiliary Disease. *S. A. Center* 2733S
Characterization of Serum Lipoprotein Profiles of Healthy, Adult Cats and Idiopathic Feline Hepatic Lipidosis Patients. *Helene E. Pazak, Joseph W. Bartges, Larry C. Cornelius, Melissa A. Scott, Kathy Gross and Thomas L. Huber* 2747S
Tumor Necrosis Factor-α Levels in Adipose Tissue of Lean and Obese Cats. *Cheryl Miller, Joseph Bartges, Larry Cornelius, Natalie Norton and Michelle Barton* 2751S
The Effect of Diet on Lower Urinary Tract Diseases in Cats. *Peter J. Markwell, C. Tony Buffington and Brigitte H. E. Smith* . . . 2753S
Accuracy of Quantitative Collection of Urine in Carnivores. *Søren Wamberg and Anne-Helene Tauson* 2758S
A System to Monitor Urinary Tract Health in Dogs. *Abigail E. Stevenson, Brigitte H. E. Smith and Peter J. Markwell* 2761S
Urinary Relative Supersaturations of Calcium Oxalate and Struvite in Cats Are Influenced by Diet. *Brigitte H. E. Smith, Abigail E. Stevenson and Peter J. Markwell* 2763S
Is There a Role for Dietary Polyunsaturated Fatty Acid Supplementation in Canine Renal Disease? *Scott A. Brown, Delmar R. Finco and Cathy A. Brown* 2765S
Antioxidant Status in Dogs with Idiopathic Dilated Cardiomyopathy. *Lisa M. Freeman, Don J. Brown and John E. Rush* 2768S
Advances in Dietary Management of Obesity in Dogs and Cats. *Richard F. Butterwick and Amanda J. Hawthorne* 2771S
Diet and Feline Obesity. *Susan Donoghue and Janet M. Scarlett* 2776S
A Comparison of the Feeding Behavior and the Human-Animal Relationship in Owners of Normal and Obese Dogs. *Ellen Kienzle, Reinhold Bergler and Anja Mandernach* 2779S
Diet and Skin Disease in Dogs and Cats. *Tim D. G. Watson* 2783S
Prevalence and Causes of Food Sensitivity in Cats with Chronic Pruritus, Vomiting or Diarrhea. *W. Grant Guilford, Peter J. Markwell, Boyd R. Jones, John G. Harte and Josephine M. Wills* 2790S
Possible Food Allergy in a Colony of Cats. *Reinhard Hirt and Christine Iben* 2792S

Components of Pet Foods

Comparison of Various Methods of Fiber Analysis in Pet Foods. *Birgit Opitz, Phil M. Smith, Ellen Kienzle, Kay E. Earle and Ian E. Maskell* 2795S
Fiber Affects Digestibility of Organic Matter and Energy in Pet Foods. *Kay E. Earle, Ellen Kienzle, Birgit Opitz, Phil M. Smith and Ian E. Maskell* 2798S
Apparent Ileal Nitrogen and Amino Acid Digestibility of a Moist Cat Food. *Wouter H. Hendriks and Marieke Emmens* . . . 2801S
Selected Fructooligosaccharide Composition of Pet-Food Ingredients. *Hussein S. Hussein, Joy M. Campbell, Laura L. Bauer, George C. Fahey, Jr., A.J.C. Lewis Hogarth, Bryan W. Wolf and Diane E. Hunter* 2803S
An Improved Method for the Estimation of Energy in Pet Foods. *Ellen Kienzle, Birgit Opitz, Kay E. Earle, Phil M. Smith, Ian E. Maskell and Christine Iben* 2806S
A Comparison of the Bioavailability of Three Dietary Zinc Sources Using Four Different Physiologic Parameters in Dogs. *John A. Lowe and Julian Wiseman* 2809S
Raw and Rendered Animal By-Products as Ingredients in Dog Diets. *Sean M. Murray, Avinash R. Patil, George C. Fahey, Jr., Neal R. Merchen and Denzil M. Hughes* 2812S
